The best course of action was to hide out here for a moment while the guards prowled the nearby streets. It gave me and a kid a chance to talk, and not about clowns who danced with masks on.

"Masami Hashimoto. You and I have much to discuss." This was the first time I had ever addressed her so officially. Names hold a certain kind of power, but only if you used them sparingly. Like a spice, they can change the flavor of a sentence entirely.

And this dish was tasting bitter. But this matter had to be addressed.

"I'm your bodyguard. You tried running out on me while I slept. Why?" My eyes met hers and prepared for a staredown, but that wasn't necessary. Her eyes looked away towards the front entrance, as if willing the body to follow. Why was she so desperate to avoid this question?

Masami's hands clenched into fists. "Worried that I would abscond on your payment? Of course! That's all you ever seem to care about!" She pulled out a pouch from inside her kimono and slammed it against the stage floor. The jingling of coins preceded a scatter of ryō, the shining glints of gold unmistakable even in this faint light.

"There! Take your ryō you...you scoundrel." The shugenja turned away from me with shoulders that raised with rapid breaths. She seiffed the air, though not to catch a scent. Masami was holding back a cry, and it was entirely my fault.

- "My job is to worry—about you."
- "We need to be able to trust each other."
- "Don't ever throw money at me."

<Drifter has increased.>

Can't a man get drunk in peace anymore? I raised the near-empty pitcher to fill myself up another glass. The smell of dumplings almost masked it completely, but I could still smell the pile of shit Oyama wanted me to step into. The job couldn't be as easy as it seemed. Whether it was a scam or not I couldn't tell, but I was content to see this matter unfold from the sidelines.

"Not interested."

Kin's shoulders slumped, but he released a notable sigh of relief as well. He might have even hoped for this outcome, just so he could return to his table knowing he had at least tried. I know that type pretty well. The family would no doubt get laughed at for being low-born; they'd be revealed as Genfu deadbeats and that would be that.

He had mentioned a child, but I couldn't spot the potential suitor anywhere. Unless...aha! Hidden behind the overstuffed roll of carpet that was his wife, a graceful figure sat. Far from being a child, this figure—thankfully—looked nothing like the parents that birthed it. It was the sort of attractive human form that forced my eyes to linger.

What was I looking at, exactly?

- A blushing bride in full bloom.
- A bride who hasn't just bloomed, she's reinvented the hourglass.
- A charming groom, elegant but nervous as ever.
- A hunk of a groom, muscled and shaped from top to bottom.

Heavy breathing and the stench of sweat permeated throughout the once peaceful chamber of the Lion Temple. These men had sprinted their way across half the capital to get here, wearing half a hundred pounds of gear apiece. No easy task—especially for stationary guards in what had to be the most peaceful place in Hyuga.

If they were smart they'd have this place surrounded. But if they were smart they'd have waited to catch their breath before entering. I looked over towards Masashi who was frozen in place, and then to Toshio who was...nowhere to be found. He had probably cloaked himself into the darkness upstairs, leaving the two of us to face this peril.

Damn, I hate working with ninjas.

I could hear a murmuring in the crowd of guardsmen, between the heart-pounding gasps for air. "Ronin." Apparently my presence had caused quite a stir, which wasn't necessarily a bad thing. Rumors of my reputation kept them a respectful distance away.

The silence was starting to make me uncomfortable. Atop of that, my wrist itched something awful. Part of me was just waiting for an excuse to let loose; the other wanted to give them a warning.

"No one needs to die here."

"One at a time or all at once?"

"We're just newlyweds here to pay our respects."

I've been following choice of games for a longtime and these hosted games are putting them to shame. While they worry about inclusiveness and twenty odd genders to include, these guys are creating stories that get you hooked. And hooked I was.

The only complaint I have is: Get rid of the the anime style pictures on steam and choice of games website. It's the only reason I didn't buy it before steam. I was expecting some weebo♥♥♥♥♥ not a dark a gritty story that I couldn't stop playing.

. So... Fresh off of my first read-through, and my first review in forever.

Where do I start with this one? As far as stories go, SoH is very, very well written. Choices invoke thought, dialogue has a few very nice jokes within, and overall it is a tale very much worth reading, and a story I would very much recommend to a lot of people. When I was gifted this I wasn't exactly sure what I was getting myself into, but holy hell am I glad I read it through. I'm not going to say too much about this, mostly because I believe the best stories are ones you experience blind, but if you're even thinking of giving a shot: do so. It's only \$5, and while it may not be considered a "game" by the terminology of most of those on this platform, it very much deserves being called as a fantastic story that you'll have trouble putting down until you reach the end. It's short, unfortunately, but the well-crafted story and amazing writing more then make up for it.

-K. "Masami and I made a quit exit;". This is some good♥♥♥♥♥loved it! And i want MORE!!!!. All i can say is SHUT UP. SHUT UP SHUT UP. The dialogue choices are the stupidest, nonsensical choices ever created. SHUT UP! I wish i can slice this author up the way the main character does. SHUT UP SHUT UP SHUT UP SHUT UP SHUT UP!! . Coming into this I was expecting something like Way of the Samurai but text based. What I got instead wad the most gripping, perfect story I've been privileged to play through in far too long. You absolutely must play this game. It isnt very much so buy it. Trust me, you will get hooked. A fantastic Eastern flavoured samurai tale with just enough of a blend of the familiar and the new, I thoroughly enjoyed this game.. I loved the writting style and the manacanics, Simple put its well worth the money in my opinion.. One of my favorite from choice of games, this one has it all. The stat system is intersetting compared to the usual affair, and the story and characterts are pretty likeable. Im defiantliely interested to see where it goes. Maybe just because im a sucker for samurai and ronin, but this game is pretty dang good.

Hey...that was pretty good ;). I'm not so good at english, at first I was like..."oh text everywhere" but it's not a problem at all! well..sure I take some(?) times to finish but all worth the money. (The story still stuck in my head I wish to go wild without worry about Attunement..). Hey...that was pretty good ;). This game seemed well written, verbose and all.

But the choices and story just didn't seem interesting to me. Cool you can choose if you are male, female, your love interest and if you try to be a muscle head or a sneaky ninja fighter... but it all sort of makes the story feel meaningless. If I can choose all of those, why don't I just go downstairs, leave the story to do something else - and get the Jigsaw achievement.. hi i would like a refund for a couple of games i bought i thought they would be different but one is about reading and the others graphics are crapy i have not played them but once two see how they were and totally did not like them so if u would please refund me my money i would be most pleased thank you my email is moemoe1509@gmail.com and my name is maureace garton please help me i made a mistake thank you. quote;"Masami and I made a quit exit;". Definitely worth \$3.99. It's a fun game to play while you wait for a bigger title to come out. I found the story to be really entertaining, with tough choices and characters that you actually care about. Recommended!. The game that introduced me to text-based RPGs. I love every part of it.
